ABOUT ME

I'm redescovering my purpose in life thanks to my newly gained skills in web development. I studied arts but I've always been surrounded by technology lingo, since big part of my family is involved in IT. I have a predisposition for data, organizing it and discovering connections. I really value team work and good communication. The more I learn the more I realize I need to keep at it.

MY TOP 2 PERSONAL PROJECTS

Salon na Jahodě (2025)
This was the first webpage I handled for a client. I did it from scratch, the design, the code and the deployment. I learned many new things about HTML and CSS, it was very fun and satisfactory.

My Portfolio (2024-2025)
This is where everything comes together. This is my ongoing project, that contains all of my projects. It's where I can showcase my current skills and give you an idea of who I am as a person and developer.
